

MEETING THE 17 SUSTAINABLE DEVELOPMENT GOALS

1. NO POVERTY

Families are both producers and consumers, whilst earning a livelihood

2. ZERO HUNGER

3. GOOD HEALTH AND WELL-BEING

By developing community recreation programs and medical services

4. QUALITY EDUCATION

Primary education for the young, aquaculture, agricultural and vocational training for the old

5. GENDER EQUALITY

Empowering both women and men to develop a functional city

6. CLEAN WATER AND SANITATION

Municipal wastewater management, recycling, and rainwater systems

7. AFFORDABLE CLEAN ENERGY

Powered by recycling and the sun

8. DECENT WORK AND ECONOMIC GROWTH

Growing the economy through primary and ancillary activities

9. INDUSTRY, INNOVATION AND INFRASTRUCTURE

Through the application of Spire's Technology in an eco-satellite city

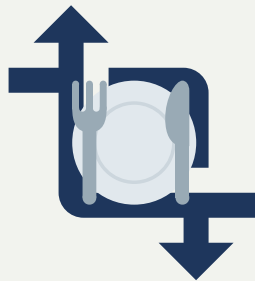

10. REDUCED INEQUALITY

Communities growing together

11. RESPONSIBLE CONSUMPTION AND PRODUCTION

Through recycling and repurposing strategies

12. SUSTAINABLE CITIES AND COMMUNITIES

By utilizing environmentally inspired practices and renewable resources to protect the environment

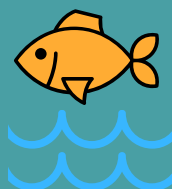

13. CLIMATE ACTION

Pro-active development of sustainable technologies and processes to reduce Greenhouse Gas Emissions

14. LIFE BELOW WATER

Through sustainable and organic aquaculture and agricultural management

16. PEACE AND JUSTICE STRONG INSTITUTIONS

Through the provisions of security, education, and a stable income for members of the community

17. PARTNERSHIPS TO ACHIEVE THE GOAL

Rural Economic Development (RED) linking global partners to develop a fully functioning city
